1. Introduction

INMAA was established in 2003 (as Inmaa al Tajaddod) by a group of people advocating for the rights of the Bedouins, stateless and all marginalized populations, stateless and all marginalized with a strong commitment to universal values and the belief that helping vulnerable communities wasn't enough. Through our various programs and initiatives, we want to assist vulnerable individuals and communities in overcoming their challenges and achieving long-term self-sufficiency. No matter if we're working on community development efforts, economic empowerment programs, or education and training initiatives, our strategy is based on a thorough understanding of the needs and assets of the communities we serve. Our dedication to cooperation and collaboration is at the core of all we do. We believe that by working together with community members, local organizations, and other stakeholders, we can create sustainable and practical solutions that have a lasting impact.
