

NOTICE OF OPEN AND CONTINUOUS CALL FOR QUOTATION
REF No : ACOC/BEI/001/2024

In connection with the current humanitarian crisis, Handicap International/Humanity & Inclusion with its Atlas Logistique project proposes to provide to the humanitarian actors engaged in the response free road transportation services within the crisis affected areas, as well as pre-delivery temporary warehousing services. This will help the actors already present in the areas make their response more efficient and cost effective, while new actors, so far limited in their intervention by logistic and budget constraints, will be enabled to launch emergency operations.

Handicap International/Atlas Logistique is implementing the shared logistics platform project based in Beirut, funded by ECHO/EHRC for a minimum period of 6 months. To this end, HI/AL is launching a call for open and continuous quotations for the provision of transport services countrywide. **HI/AL intends to award contracts for truck chartering services on the basis of transport requests from its platform services partners according to the following batches:**

NO BATCH)	TYPE OF TRUCK	PAYLOAD	NO BATCH	TYPE OF TRUCK	PAYLOAD
