

Correction Notice for MASAR-LB-VNGI-006-SP/2021 Technical Specifications

Date: 10/02/2021

Please note the following correction in the technical specifications related to the wattage of the CO2 super critical machine

Item no. 2 in the technical specifications Annex II&III :

Original sentence: The machine electric input is 220V/50 Hz with a power of 2000 Watts

Will now read as follows:

Correction: The machine electric input is 380/50 Hz . Wattage depends on the specifications of the machine offered by the tenderer.

This correction will be reflected throughout the tender dossier documents.
