Explanation	
<b>Point of Origin</b>	The point where the truck will be loaded and start its trip with the cargo
<b>Radius</b>	Distance from the point of origin
<b>Cost in USD</b>	The cost of the truck including loading and offloading. VAT Excluded

1/ The farthest radius will be counted if distributions are made in multiple radius in the same direction (for instance, distributing first in 5 to 10 KM radius, then in 10 to 20 radius, "10 to 20Km radius" will be charged solely).

2/If distributions are made in the same radius but in different directions, each direction will be calculated separately (for example. distributions in Batroon and Anfeh first, followed by distributions in Halba, Halba Radius and Batroon Radius will be charged)
