

Technical Specifications & Layout

for Mobile shelving system

General Description:

UNHCR is planning to install a mobile shelving system for storing box files in the storage room in UNHCR Tyre Field Office. The shelving system will consist of shelves for storing box files and hanging files.

Required specifications:

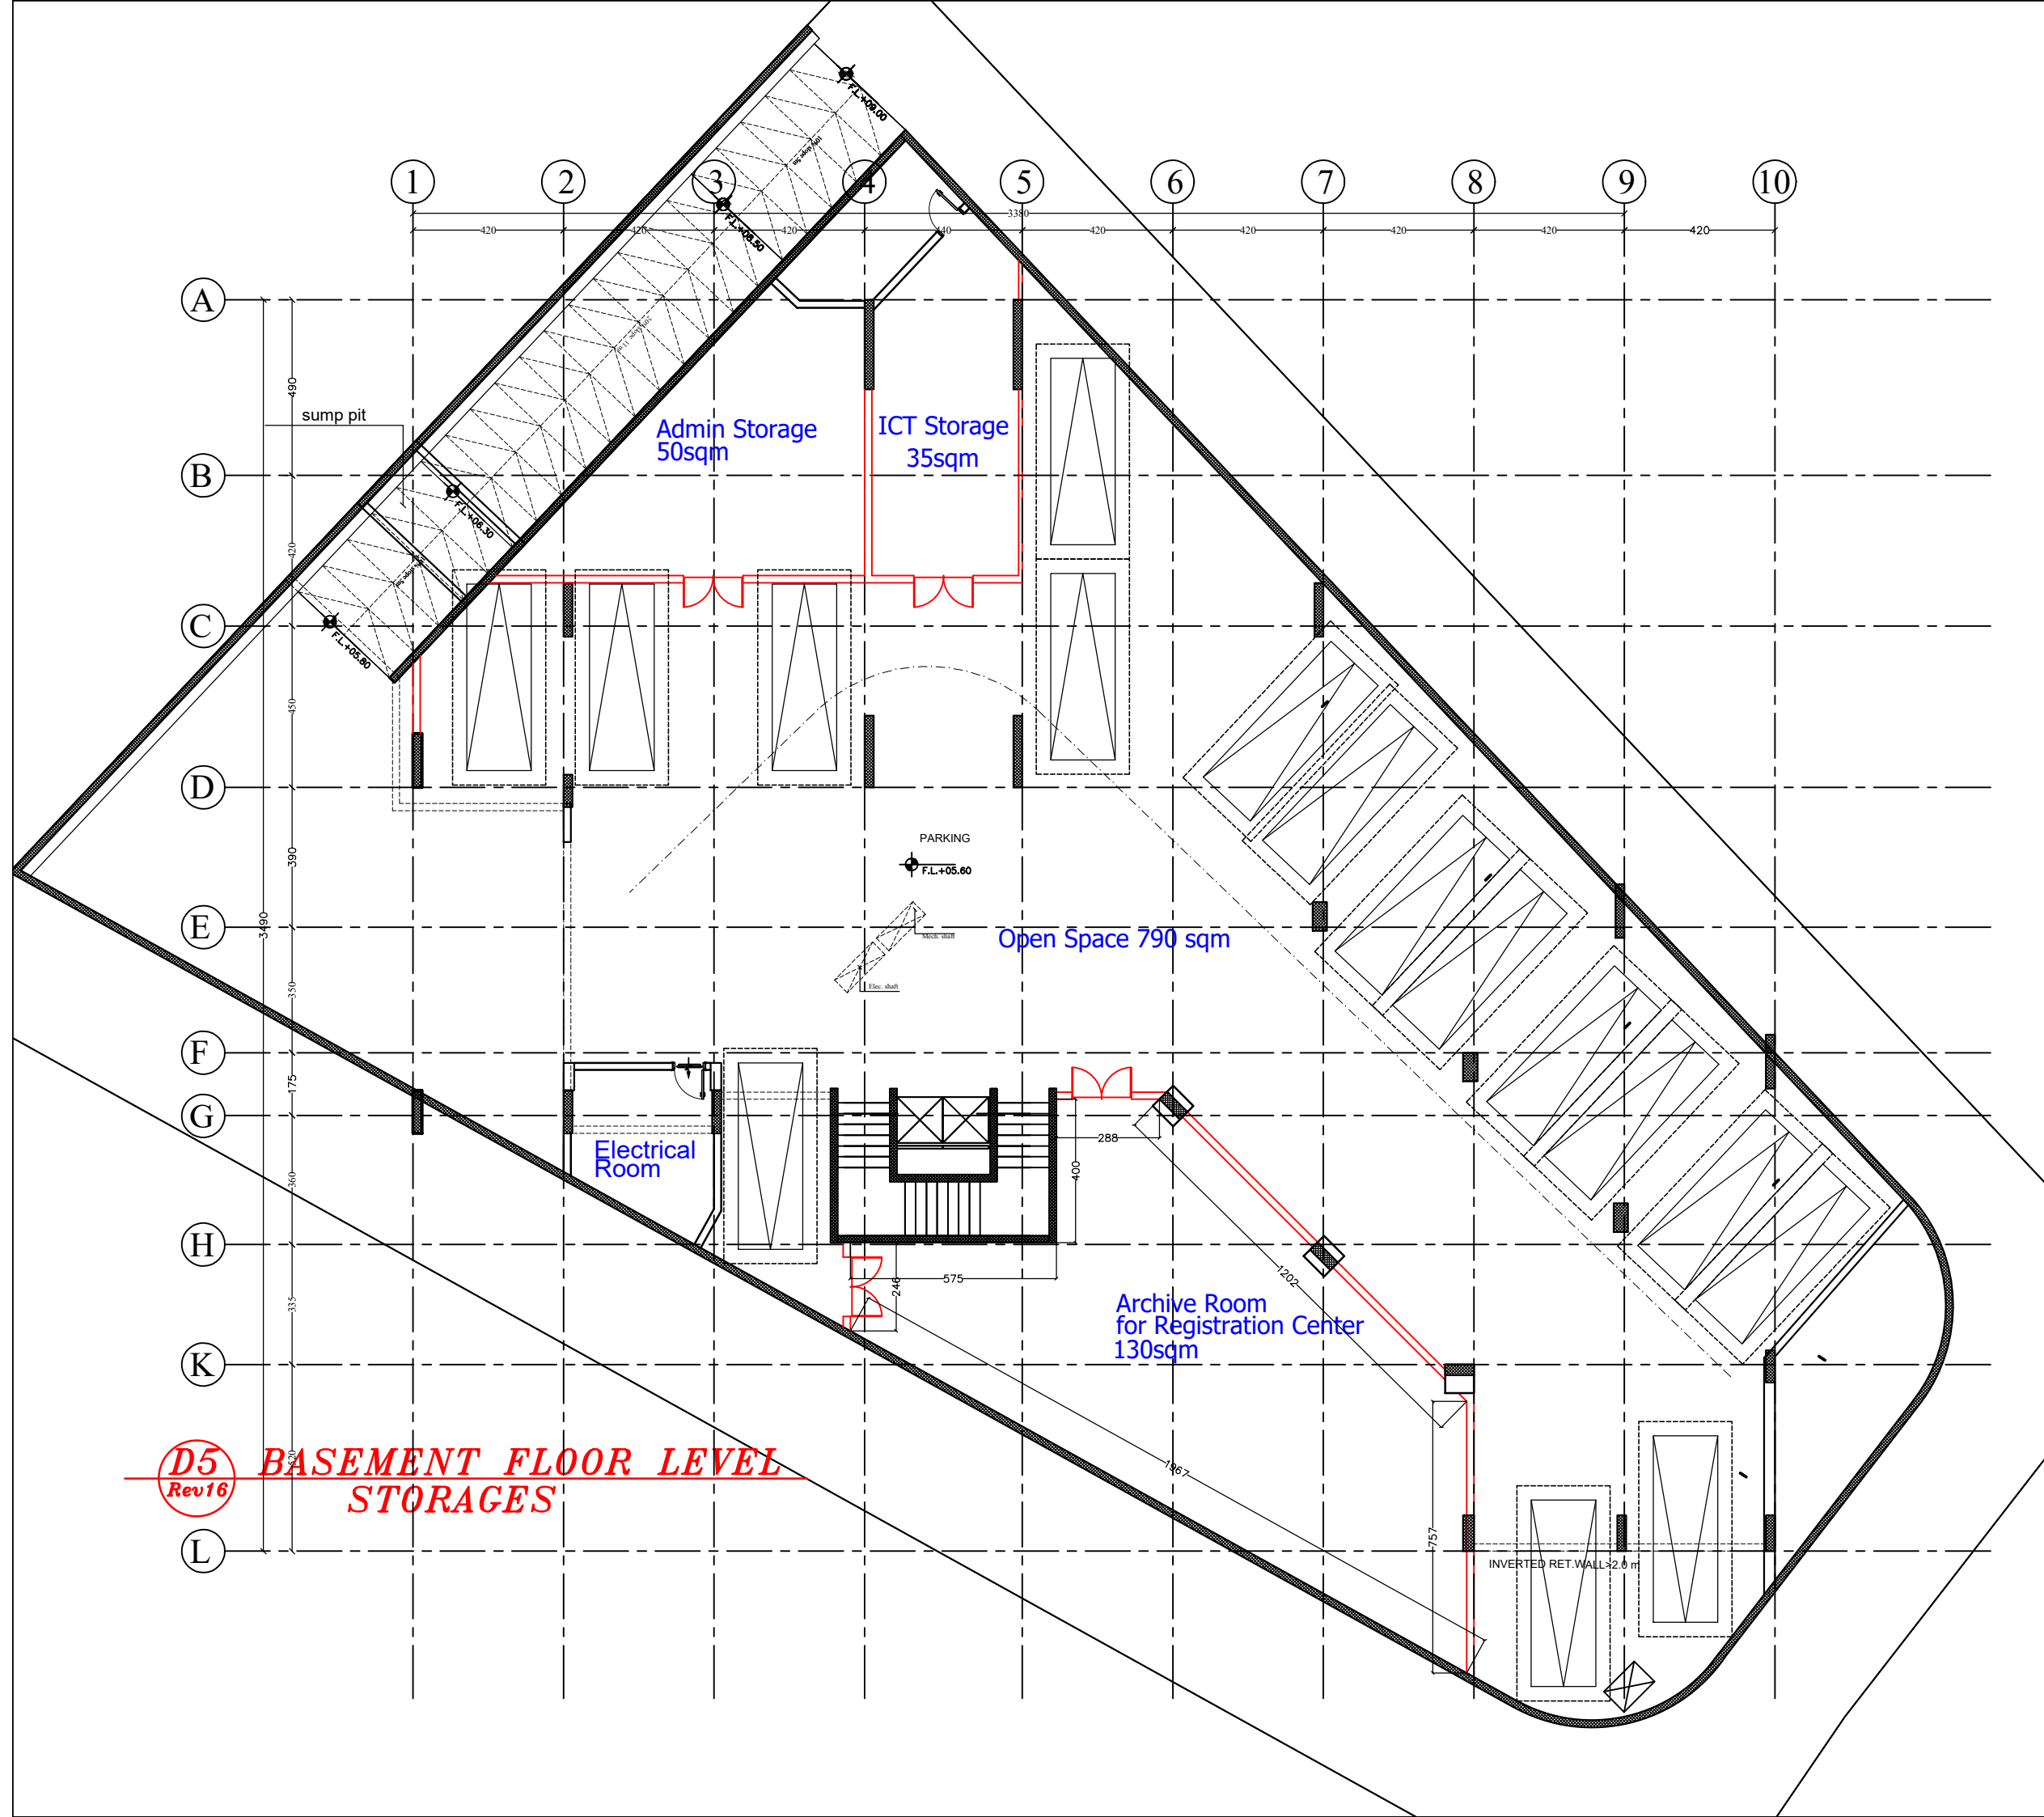

- Easily operated mechanical movable shelves
- Durable Static shelves.
- All shelves are epoxy coated steel.
- System should provide a storage of a minimum of 940 linear meters (approximately 35% hanging folders and 65 % Boxes/mobile cabinets) for box files.
- Box files size: Height: 34.5 cm, width: 11cm and depth: 27 cm

Warranty terms and duration:

Supplier should provide at least 1 year warranty for the installed system including mechanical parts as well as any manufacturer defects starting from handover date.

Delivery lead time:

Project should be fully accomplished and handed over latest by 15th of December 2023.
