

Annexe 2: Results Matrix

Name of FC project

ACF Employment-intensive Environmental Program, Phase II

Project no. (BMZ-No.)

2021.4058.0

Country/Region

Lebanon

Results Matrix compiled on

28.07.2022

Objectives	Indicators	Sources	Assumptions
<p>Overall objective (Impact): Improved living conditions for Syrian refugees and Lebanese host communities due to the provision of temporary job opportunities and a positive contribution to the environmental conditions in the targeted communities.</p>	<p>Indicator a): Percentage point increase of surveyed beneficiaries describing their living conditions as 'good' after participation in the program.</p> <p>Baseline value: n/a Target value: + 20 percentage points</p>	<p>Baseline and end-line surveys with sample of CfW beneficiaries (disaggregation by respondent gender and nationality)</p> <p>Focus Group Discussions (Pending COVID-19 regulations)</p> <p>Progress monitoring reports</p> <p>Site Photos</p>	<p><i>Do not fill!</i></p>
<p>Outcome 1.1: Increased capacity of CfW beneficiaries to meet their basic needs</p>	<p>Outcome-Indicator 1.1: % of CfW beneficiaries that consider they improved their capacity to cover the majority of their basic needs</p> <p>Baseline value: n/a Target value: 75 %</p>	<p>Baseline and end-line surveys with sample of CfW beneficiaries (disaggregation by gender and refugee/ host population status)</p>	<p>Assumptions / Risks regarding outcomes:</p> <ul style="list-style-type: none"> No major destabilizing social, economic or political crisis

Objectives	Indicators	Sources	Assumptions
<p>Outcome 1.2: CfW beneficiary households decrease utilization of high-risk coping strategies¹</p>	<p>Outcome-Indicator 1.2: Percentage point decrease in the proportion of CfW beneficiaries utilizing the most severe coping strategies.</p> <p>Baseline value: n/a Target value: - 10 percentage points</p>	<p>Baseline and end-line surveys with sample of CfW beneficiaries (disaggregation by gender and refugee/ host population status)</p>	<ul style="list-style-type: none"> • Sufficient commitment of the targeted communities to ensure sustainability of cleaning activities • Tensions between refugees and host communities remain contained • No return of large percentage of Syrian population to Syria • No deterioration in the COVID-19 health situation in Lebanon
<p>Outcome 1.3: Trust and positive perception of each other among the CfW beneficiaries are attained at the end of each CfW cycle.</p>	<p>Outcome-Indicator 1.3: Percentage point increase in the proportion of CfW beneficiaries reporting positive relationships between Lebanese and Syrians.</p> <p>Baseline value: n/a Target value: + 10 percentage points</p>	<p>Baseline and end-line surveys with CfW beneficiaries</p> <p>Focus Group Discussions with CfW beneficiaries and persons living in communities benefiting from CfW activities (Pending COVID-19 regulations)</p>	
<p>Outcome 1.4: Increased dietary diversity of beneficiary households (Proportion of beneficiaries with 'acceptable' FCS)</p>	<p>Outcome-Indicator 1.4: Percentage point increase in the proportion of beneficiary households with an 'acceptable' Food Consumption Score (FCS).</p> <p>Baseline value: n/a Target value: + 25 percentage points</p>	<p>Baseline and end-line surveys with all CfW beneficiaries (disaggregation by refugee/ host population status)</p> <p>The question is formulated based on the Food Consumption Score (FCS); a standard measure of food security developed by the World Food Programme (WFP). The FCS aggregates household-level data on the diversity and frequency of food groups consumed over the previous seven days, which is then weighted according</p>	

¹ High-risk coping strategies are defined as relying on less expensive/less preferred food, borrowing food and/or relied on help from friends/relatives, reducing the number of meals eaten per day, reducing portion size of meals, restricting consumption of adults so that children could eat, sending children to work or beg.

Objectives	Indicators	Sources	Assumptions
		to the relative nutritional value of the consumed food groups.	
Outcome 2.1: Environmental conditions are improved in targeted communities	Outcome-Indicator 2.1: % of activity implementation sites with improved environmental conditions as a result of CfW activities. Baseline value: n/a Target value: 80 %	The public area assessment report will look at presence of rodents/insects, litter, odors, if the site is polluting the water source/Irrigation channel/ agricultural land/ river/ wetland and waste disposal service availability. Positive changes in these conditions will be considered improvements in the environmental conditions; Site photos.	
Outcome 2.2: CfW beneficiaries and community members adopt SWM behaviours for sustainable change in environmental cleanliness	Outcome-Indicator 2.2: % of households involved in the project who report that they use positive SWM practices, i.e. sorting at source Baseline value: 15 % ² Target value: 60 %	Baseline and end-line surveys with all CfW beneficiaries (disaggregation by refugee/ host population status) Site photos	
Output 1.1.1: Creation of temporary employment opportunities through labor-intensive activities	Output-Indicator 1.1.1a: # of male beneficiaries involved in the labour-intensive activities lasting at least 40 days in total ³ Baseline value: 0 Target value: 4,080 (60%)	Project progress reports (Monthly and biannually) Project progress reports (Monthly and biannually)	Assumptions / Risks regarding outputs No major restrictions imposed on Syrians' access to markets and

² Baseline value set according to experiences in phase I.

³ In line with the German employment initiative "Partnership for Prospects (P4P)" Methodology Note dated 2nd April 2019

Objectives	Indicators	Sources	Assumptions
	<p>Output-Indicator 1.1.1b: # of female beneficiaries involved in CfW activities for at least 40 days. Baseline value: 0 Target value: 2,720 (40%)</p>	Project progress reports (Monthly and biannually)	income-generating activities in the solid waste sector
	<p>Output-Indicator 1.1.1c: # of person with disability(s) involved in the labour-intensive activities lasting at least 40 days in total Baseline value: 0 Target value: 136 (2%)</p>		
	<p>Output-Indicator 1.1.1d: # of workdays created in CfW activities Baseline value: 0 Target value: 275,000</p>		
<p>Output 1.2.1: Beneficiaries are provided information to promote positive protection outcomes and promote gender equality</p>	<p>Output-Indicator 1.2.1: # of beneficiaries participating in group sessions Baseline value: 0 Target value: 6,800</p>		
<p>Output 1.3.1: Social interaction between Syrians and Lebanese is increased through mixed-cohort CfW activities</p>	<p>Output-Indicator 1.3.1: % of labour-intensive cohorts mixing nationalities Baseline value: 0 Target value: 95 %</p>		
<p>Output 1.4.1: CfW beneficiaries participate in information sessions on health and nutrition</p>	<p>Output-Indicator 1.4.1: # of participants attending information sessions on health and nutrition nutritional awareness raising sessions Baseline value: 0 Target value: 6,800</p>		

Objectives	Indicators	Sources	Assumptions
<p>Output 2.1.1: Public spaces are cleaned through labour intensive activities</p>	<p>Output-Indicator 2.1.1a: # of project sites benefitting from SWM activities, including all the public spaces and sorting facilities Baseline value: 0 Target value: 100</p>		
	<p>Output-Indicator 2.1.1b: # of tons of waste collected in site cleaning activities (tons / month) Baseline value: 0 Target value: 500 tons per month / in total 10,000 tons</p>		
	<p>Output-Indicator 2.1.1c: # of tons of waste treated in the sorting facilities (tons / month) Baseline value: 0 Target value: 40 tons per month / in total 800 tons</p>		
	<p>Output-Indicator 2.1.1d: # of public spaces / sorting facilities rehabilitated Baseline value: 0 Target value: 6</p>		
<p>Output 2.2.1: CfW beneficiaries and municipal focal points for SWM participate in sessions on SWM and positive environmental behaviours</p>	<p>Output-Indicator 2.2.1a: # of awareness sessions about SWM and positive environmental behaviours conducted within the communities and municipalities of targeted areas</p>		

Objectives	Indicators	Sources	Assumptions
	Baseline value: 0 Target value: 200 Output-Indicator 2.2.b: # of awareness sessions about SWM and positive environmental behaviours conducted within the municipalities of targeted areas Baseline value: 0 Target value: 40		
<p>Activities within the project</p> <p><i>Bekaa:</i></p> <p><i>Cash for Work:</i></p> <ul style="list-style-type: none"> • <i>Sorting and rehabilitation works at sorting facilities</i> • <i>Cleaning of public roads and street shoulders</i> • <i>Cleaning in ITS</i> • <i>Cleaning and small rehabilitation works in public spaces and natural reserves</i> <p><i>Complementary Activities:</i></p> <ul style="list-style-type: none"> • <i>Trainings on work safety and First Aid</i> • <i>Group sessions on nutrition, protection and well-being for all beneficiaries</i> <p><i>Awareness campaigns in the targeted communities about solid waste management</i></p> <hr/> <p><u><i>South:</i></u></p> <p><i>Cash for Work:</i></p> <ul style="list-style-type: none"> • <i>Sorting and rehabilitation works at sorting facilities</i> 	<p><i>Do not fill!</i></p>	<p><i>Do not fill!</i></p>
