Name	Order of Malta Lebanon
ITB Reference	LLP2 0067.2024
Project Location	Beirut – Lebanon
Closing Date	June 7 th , 2024 at 6pm Beirut local time

I. Introduction and context

The Order of Malta Lebanon has been operating in the health and social welfare sectors since 1957. It manages a network of 40 projects serving the most vulnerable populations, across the Lebanese territory including primary healthcare centers, mobile medical units, elderly day care centers, hosting centers for the differently-abled and projects for the displaced and refugees as well as an agro-humanitarian program.

Lebanon has been facing shortages in medicines and medical supplies since January 2021; hence, the Order of Malta Lebanon is looking for international tenders in order to respond to the needs of its health facilities within its network.

II. Project Objective

The main project objective aims **to strengthen the resilience of host communities and refugees and improve the health status of vulnerable populations affected by multiple crises in Lebanon**, by expanding and diversifying health care services to respond to the needs of beneficiaries.

The target is for the population living in the vicinity of the Order of Malta Lebanon operated facilities to have an improved access to healthcare services such as medical consultations, medicines, medical supplies, laboratory tests, dental services and others.
