

## LITB-2021-9171019- LTA for Caregiver Toolbox

### Clarifications and Additional Requirements

- Bidder to share a sample of printed tools as requested in the tender document.
- Updated Annex 1- Pricing List is to be submitted in both; excel and signed PDF formats. Annex with modified/deleted/added cells/sections will not be accepted.
- The shared files of designs and specs are the final version for each item.
- Some items include a flat design for the boxes. Bidder can prepare a ready to print file based on the printing specs and can provide the specs accordingly.
- The play mat specification might not be practical. Bidder to provide specs and sample for a more practical playmat in terms of availability of materials in the market, packing and mobility.
