

1- Will the mandate entail any primary data collection or will the study be dependent on secondary research only? **Depends on the topic and the analysis needed. However, UNICEF will not be covering the cost of primary data collection conducted through a survey.** Will research conducted by UNICEF be shared with the consultant? **The ones mentioned in the TOR (National Social Protection Strategy, Child Poverty Advocacy Plan including the Multidimensional Child Deprivation study and the Child Focused Rapid Assessments conducted every six months, MEHE's 5 Year Plan, and National Youth Action Plan). More reports and publications can be found on UNICEF website.**

2- Will the reports and policy briefs need to be prepared in English only or would they also need to be translated to Arabic? **Depending on the target audience and purpose of the deliverable, translation to Arabic might be needed.**

3- You indicate in the scope of work ' The contractor will be required to present the findings and analysis through power point presentations, articles, policy briefs, position papers and case studies where relevant, as well as through webinars and roundtable discussions when necessary.' Can you please clarify what are your minimum expectations for each theme? **As per the deliverables table, at least one product of each per theme.**
