I. INTRODUCTION

A. ORGANIZATION BACKGROUND

The Lebanon Reforestation Initiative (LRI) is a Lebanese NGO registered at the Ministry of Interior and Municipalities under no. 1186 on 18 June 2014 and had started as a project launched in 2010 by the United States Forest Service (USFS) Office of International Programs (IP) through the support and funding of the United States Agency for International Development (USAID).

One of LRI's currently implemented project is the "Livelihoods in Forestry" project funded by USAID. The project aims at improving sustainable forestry activities through the establishment of models for economic forestry and forest-related rural tourism. One of the project components is focused on piloting agroforestry for sustainable land management with private landowners.

II. PURPOSE

Under the context of the Livelihood in Forests (LiF) funded by USAID, LRI seeks to pilot Agroforestry (AF) for sustainable land management on private lands, in the purpose of filling the gaps and linking the forests in the 3 environmental corridors of North, Rachaya and Shouf. In a context where increased unplanned urban sprawl and land use conversions into arable lands at the expense of natural landscapes, major deforestation and land degradation impacts occur across the country, notably in the privately-owned patches of lands.

With the purpose of overcoming this challenge, piloting AF practices on private lands in Lebanon, disseminating the science among communities and farmers, and raising the awareness needed on AF practices, LRI is seeking to collaborate with a Marketing Agriculture Expert to undertake the below tasks in the collaboration with an AF committee of experts, across the project lifespan:

- Conduct marketing training sessions to build the capacity of farmers in marketing the AF products;
- Develop a marketing system to enhance the marketing of products produced under AF practices.

A. SCOPE OF WORK

The Marketing Agriculture Expert will take role in an AF committee of experts, supporting the project with his agriculture marketing expertise to empower AF practitioners on marketing approaches to diversify and widen their market. AF is an environmental friendly approach of farming that produces diversified types of products. The Marketing Agriculture Expert will suggest a marketing strategy that enables AF farmers to uplift the value of their products and incentivize the communities toward the adoption of rentable and sustainable AF techniques.

B. DELIVERABLES

1. Conduct 3 days marketing training;
2. Submit AF marketing strategy.

III. CONTRACT MECHANISM & TERMS OF PAYMENT

LRI anticipates issuing a *service agreement* to the Service provider.
