Jounieh					

Cost of the services of one labour for one day (above 5 hours - No Truck needed)

Cost of the services of one labour for one hour (up to 5 hours - No Truck needed)

1/ The trip covers a maximum of two destinations (e.g., Minieh and Bhanine) in the same direction and radius. If different directions, trip will be calculated per location  
2/ Day covers several locations in different radius and/or directions (for example minieh, Terbol)  
3/ If a location is not included in the above table, the pricing for the closest location will be used.  
4/ The farthest radius will be counted if distributions are made in multiple radii in the same direction (for instance, distributing first in minieh and bhanine, then in Halba, Halba Radius will be charged solely).  
5/If distributions are made in the same radius but in different directions, each direction will be calculated separately (for example. distributions in Batroun and Anfeh first, followed by distributions in Halba, Halba Radius and Batroun Radius will charged)  
6/Prices includes driver and fuel cost
